

LETTERS PROTEST O.M.B. DECISION

\$6,000

A faulty oil space heater has been blamed by fire officials in a fire that destroyed this 20 by 16-foot frame cottage on the Grass River

just off the Stanhope Airport Road last Friday afternoon. Owned by Paul Neath of Toronto, the building was insured. Damage has

been estimated at \$6,000. Tenants Chris Morrow and Buck Woods were away at the time. First noticed by Provincial Con-

stable Jim Solway, the blaze drew close to a dozen Stanhope firemen under Deputy-Chief Carl Harrison. With only a charred

shell left standing firemen are seen here as they continue to pour water into the still-burning but almost totally destroyed building.

'Clean-up
week'

Minden Council last Wednesday declared the week of May 2nd to May 7th as 'Clean-Up Week' in the Municipality of Anson, Hindon and Minden. During this week, Council is urging local residents to clean up their property and to collectively spruce up their neighbourhoods. The beautification of the Village of Minden and surrounding countryside is Council's prime intent and it is optimistic that Minden and area residents will respond favorably. Watch for more on this first annual promotion during the month of April.

Improper allocation of funds
blamed for financial woes

Some \$62,000 in Galway and Cavendish tax monies that failed to reach the Peterborough County Board of Education were improperly allocated and not misappropriated, the municipal council learned Saturday. Since 1972 the ratepayers of Galway-Cavendish have paid about \$62,000 in interest charges because of failure to pay its educational levy requirements on time each year since 1972. As well, they still owe about \$78,000 or 30 per cent of its educational levy for last year. "Just a case of lack of

discretion in management of money affairs in the municipality in the past", commented Galway-Cavendish Reeve Carl Brickman, who reiterated, "there appears to be no misuse of municipal funds but rather a misallocation of funds." Reeve Brickman who heads the all new council that inherited the problem, pointed out that some of the money earmarked for the educational levy was used to finance construction of the Galway and Cavendish municipal offices. But cost of the building

was not levied for nor was

Death threat
brings
charges

A Haliburton man who invaded a Minden couple's bedroom and threatened the husband with death last week, now faces charges of breaking and entering, dangerous use of a firearm

Haliburton sewers enter
2nd phase

The second and final phase of the Haliburton Village sewer project will get under way this summer. This was the word this week from the Province's Ministry of the Environment and a highly pleased Murray Fearrey, Reeve of Dysart et al. Plans call for the installation of sanitary sewers to the major residential core of the village plus one spur to Extencicare and threatening. Robert Dennis Vickery, 30 of Haliburton entered the home of Dwain Packard, See THREAT P. 2

and a second spur to the Haliburton Highlands Secondary School, the Senior Elementary School and Haliburton Red Cross Hospital. Cost of this phase of the project is estimated in excess of \$1.5 million. Tenders are to be called shortly, Reeve Fearrey pointed out. In 1974-75 the first phase of the Haliburton Village sewer project was carried out, including the construction of a sewage treatment plant and the installation of sewers to the main street.

Res.
457-1110

FROM THE CHAMBER WITH BOB STINSON

It's good to be back. After ten days in Toronto at the Sportsman Show we are finally back in Haliburton Highlands. Ten days in Toronto is enough to make anyone really appreciate the county we live in. Most of the people working at the show from tourist areas such as ours were virtually nervous wrecks by the time the show closed Sunday night.

The Sportsman show this year certainly was a success from the point of view of those working there. We are continually hearing of restraint and of the fact that people will be doing considerably less spending this year but this is certainly not in evidence at the Toronto Sportsman Show. The interest shown would certainly lead us to believe that people will be as interested in holidays this year as they were last. The interest in real estate seemed particularly high this year. In this respect Haliburton was well represented with three brokers having their own booth at the show and four brokers working through the Chamber booth. We will be busy at the office this week getting out the list of inquiries to all our accommodation members.

Just before going to Toronto we attended a one day tourism seminar at Peterborough.

The seminar was well attended and those participating found it well worth while. Following the seminar the annual meeting for C.O.T.A. was held. The members at the meeting were particularly shocked when a letter was brought forth by one of the members. The letter was written by Mr. George Tawse-Smith, Director of Marketing for the Canadian Office of Tourism. It is a form letter which has been sent to American fisherman addressed to Dear Angler. The letter for the first two pages explains the many advantages of coming to Canada to go fishing. It then goes on to say "Canada offers the fisherman such a vast choice, its hard to decide where to go. Let me make a suggestion.....just across our neighbourly border lies the finest fishing paradise you could imagine- in "LaBelle Province du Quebec". If your tired of over fished waters, this is you kind of place!" The letter goes on for a further page to expound on the fishing advantages of Quebec Province. The number of copies of this letter that have been mailed and the origin of the mailing list used were not known at this time. Copies of this letter were circulated to interested parties and this Chamber certainly intends to forward further copies to our Federal member, Bill Scott, and the Ontario Chamber of Commerce. The Provincial Ministry of Industry & Tourism has already expressed their extreme concern over this misdirection of the Federal offices efforts. It is certainly hoped that enough pressure will be brought to bear to correct this unforgiveable action. The guest speaker for the dinner meeting was Mr. Wes Tebeau, Manager of West Michigan Tourist Association. He had many impressive facts to relate to us and his speech was not only informative but entertaining. One of the important facts that we felt was brought forth was the strength of his organization was such that the government is not only anxious to have input from him but in some instances rely entirely on their advise. At the same time being concious of this strength their association listens very carefully to its membership and tries very hard to carry out the wishes of that membership.

While we were working at the show in Toronto, Council was meeting here in Haliburton to decide on this years budget. We were pleased to get word that County Council had decided to re-establish a \$12,000 grant for the Chamber. Last year when the grant was cut back to \$8,000 it left the Chamber \$3,000 in the hole and it will still take considerable effort to overcome that deficit. It was disappointing, however, to hear that the decision was not unanimous and that some members of County Council still do not see the value of the Chamber of Commerce to the community as a whole. This County needs the Chamber of Commerce and the Chamber of Commerce needs the full backing of the County. Let us hope that next year the decision of County Council will be unanimous.

COMING EVENTS

- April 1 - Skate-a-thon, Minden Arena
- April 9 - Maple Syrup Festival & Flea Market in Wilberforce

Letters

March 17, 1977

Honourable William G. Davis, Q.C.,
Premier of Ontario,
Parliament Buildings,
Toronto, Ontario.

Dear Mr. Davis:

The Ontario Municipal Board decision dated March 2nd, 1977, a copy of which is attached hereto, represents one of the gravest travesties of justice ever perpetuated on the Citizens of the Community in our entire 118 year history.

We hereby appeal and protest this action which forces our people to bear a disproportionate share of education taxes in this County. While lawyers, bureaucrats and politicians continue to argue the basic philosophies of property taxation, our citizens have paid hundreds of thousands of dollars above their proper share in education taxes. The other side of the coin shows other County Municipalities paying far less than their fair apportionment.

This monstrous deception continues to this day because the Provincial Government continues to postpone market value assessment and by freezing Equalization Factors, removes any vehicle to redress the gross inequities.

The Statement made by the Honourable Mr. McKeough is apparently another announcement of another delay in the Market Value Program. Once again you will have forced this small community to raise another \$50,000. in extra education taxes to subsidize other municipalities who benefit by this inequity.

This Council insists that market Value Assessment be immediately introduced in Haliburton County or institute a complete review of the Equalization Factors for the 1977 Taxation year.

Further we wish to meet with you and various members of your Cabinet to review the inequities and reach a solution, not in 1980, but in 1977.

Yours truly,

Richard Parisotto, A.M.C.T.
Clerk-Administrator

WOES

FROM P. 1

the mill rate adjusted accordingly.

Under the new interim tax billing announced earlier this month Reeve Brickman hopes the municipality will have the rest of the 1976 levy of some \$78,000 paid by the end of April of this year.

However it may take some time to pay off the interest

charges, Reeve Brickman warned.

A tax hike of about 30 to 40 per cent would be required next year if the municipality wished to pay off it's debts in one year.

Reeve Brickman, however, says he hopes to defer the tax hike over a number of years to ease the impact on the ratepayers.

THREAT

FROM P. 1

RR 2 Minden just after midnight last Wednesday, marched into the bedroom where Packard and his wife were asleep, and threatened to kill Packard.

Afterwards, Packard told Police, Vickery then left the room to return minutes later brandishing a rifle and again threatening death.

After a few tense moments Packard recognized the rifle as his own and told Vickery it wasn't loaded, whereupon

Vickery turned and left.

Police believe Vickery may have been taking sides in a current Packard family dispute.

The investigation is being carried out by Provincial Constable Al Bibby.

Vickery is currently in custody in Lindsay jail.

Last year Vickery was charged with arson following a fire February 14, 1976 which gutted a Dover's Spring Road home.

March 10, 1977

The Honourable W. Darcy McKeough,
Ministry of Treasury, Economics and
Intergovernmental Affairs
The Frost Building South
Queen's Park, Toronto, Ontario.
M7A 1Y7

Dear Honourable Sir:

The council of this Municipality and also the council's of two other Municipalities in the Provisional County of Haliburton appealed the apportionments of 1976 Education Rates within the county. These appeals were consequently referred to the Ontario Municipal Board for a decision.

The strength of our appeals basically revolved around the differences in sharing ratios which resulted by comparing the 1972 market value assessment figures as adjusted and updated to 1974 without considering market changes and the 1969 frozen assessment figures which presently exist.

This comparison reflects a wide variance of financial liability to local county boards by individual Municipalities.

A letter dated October 30, 1974 from the Assessment Commission for Region 7, Mr. V. M. Hewson, to the Warden of the County Mr. Murray Feary indicated that although certain aberrations would exist in the figures being presented, they should provide a more accurate basis for comparison of the tax base potential of Haliburton's local Municipalities.

A similar appeal was lodged against the 1975 school board apportionment and the Ontario Municipal Board (Board File No. M75150) placed considerable weight on this evidence in deciding to reapportion the 1975 school board levy.

However during the Ontario Municipal Board hearing on the 1976 appeal Mr. Hewson, Assessment Commissioner indicated he could not give an opinion as to whether the 1974 figures prepared for 1975 would result in a fairer distribution of county apportionment for 1976.

Although in sympathy with the need for a re-evaluation of Assessment throughout Ontario, the council of this Municipality has by resolution directed we forward it's concern that the 1974 market value figures are considered inaccurate and no better than 1969 frozen assessments and wishes to strongly object to what appears to be a flagrant waste of public funds.

Yours very truly,

G. C. Bain, Clerk.

A companion program to Minden's sanitary sewer project which began last week is this extension of water services along the Minden bypass. Seen here

inspecting the trenching which began Monday are Minden Reeve Reg Booth and contractor Don Sherk. Don Sherk Con-

struction Limited has been contracted to install the first phase of Minden's sanitary sewer project as well as the water program.

Haliburton store hit twice in same week

Twin break-ins in less than a week at the Haliburton Red and White Store has netted thieves some \$365. Sometime between the evening of Saturday, March 19 and the morning of Monday, March 21 thieves slipped through the upstairs office window at Easton's Red and White in Haliburton and made off with \$304 in cash from the

company's safe. According to Police the safe's locking mechanism was under repair at the time and not functioning.

Provincial Constable Mike Mahar is investigating the occurrence.

Meanwhile a second break-in at the same store reported Friday morning, March 24 is also under investiga-

tion, this time by Provincial Constable Roy Telford.

This time burglars entered the store by forcing open the side loading door.

The thieves got away with 10 cartons of cigarettes valued at \$60 and caused some \$20 damage to the store.

Unheard-Of

In an almost unheard-of move Haliburton County Council has declined to pay a foster home in defiance of a family court order.

That council members took such a step at all surely indicates the alarm they feel at what this precedent-setting court order implies for County finances now and in the future and for the rate-payers who must provide the funds.

Foster homes in the County receive from \$25 to \$40 a day for each youngster assigned to them.

While paid for by the province in the past, these amounts may now be assigned by court order to the municipality in which the foster group home is located.

It would not be unusual to have possibly 30 such youngsters assigned to foster homes in the County and at just \$30 a day this would eat up some \$330,000 in one year or approximately one-half of the total amount of money the County has earmarked for its expenditures this year.

In the Region of Peel for example costs for court-ordered child care have jumped from \$79,000 in 1974 to between \$1.2 and \$1.6 million in 1977.

It would appear that Queen's Park has created an obviously impossible situation for most Ontario municipalities, one which a little foresight might have prevented.

Because County Council, in a move to save tax dollars, did not hold its usual February meeting this whole question did not come up for consideration until March, and by then it was too late for the court order to be appealed.

But, while the County may have no alternative but to pay the foster home under this specific court order, every such future court-order assignment should be appealed by whatever legal means available.

Meanwhile, the County should muster the strongest lobby possible, including the support of other Ontario municipalities, to have the legislation changed or amended.

Skate-a-thon

This Friday marks the second annual Minden Rotary Club's Skate-a-thon. It's a great fund-raising event in which charitable and other community non-profit organizations can skate to raise dollars for themselves, shared on a 50-50 basis with Minden Rotary.

It's a great cause and all the action gets under way starting at 6 pm Friday in the Minden Arena.

VERNAL EQUINOX TO THE RESCUE

Report from Queen's Park

John Eakins, M.P.P.

In October 1976 the Ministry of the Attorney General issued a White Paper on Courts Administration, based upon the premise that justice in Ontario may be seriously undermined by the caseload crisis facing the courts of this province. This White Paper reports that it was clear by 1968 that great discrepancies existed in facilities and services available in various parts of the province, and only a systematic approach would ensure adequate facilities and level of service for all Ontarians. A major change in courts administration took place in 1968 when the province, and the Ministry of the Attorney General assumed, for the first time ever, responsibility for courts administration.

In 1970 the whole question of how traditional and ancient methods of courts administration could best be adapted to 20th Century needs was referred to the Ontario Law Reform Commission. The Commission's Report, completed in 1973, was endorsed by the government, although some concern was expressed about specific operational proposals.

A regional developmental project to test feasibility of various court reform proposals was initiated, for which purpose the Central West Region, a group of ten counties and judicial districts clustering around Hamilton, was selected, providing as it does a microcosm of the entire province. The objective of the project was to provide a setting for developing and testing administrative methods and services for the courts.

The project Management Team concentrated on the

following areas:

- (a) development of office standards for Provincial Courts (Criminal and Family Divisions);
- (b) general management of the court offices by the management team;
- (c) development of more effective techniques for allocating the work of court reporters and the preparation of transcripts;

- (d) development of statistical analysis methods and techniques;
- (e) development of evaluative criteria and standards related to court productivity;
- (f) case flow management.

According to the White Paper, in all but one crucial area; the Project Team achieved considerable success. The development of administrative support services permitted the project team to

- (a) monitor the effectiveness of individual offices;
- (b) allocate administrative resources more effectively and efficiently;
- (c) develop a uniform response, throughout the area, to administrative changes in court operations

However the present divided administrative structure of the courts prevented any real progress in the key area of case flow management.

While the proposed court structure should permit the implementation of reforms necessary to ensure the public the level of service they presently require, further and other arrangements can be made to meet future needs.

A business column by Frank Kaplan

Viewing the news

Let's free enterprise

The proof is in the eating. The past year has proven that the diet of government-directed planned economic policies are a failure.

This failure of master-planning contrasts sharply with the success of a freedom-to-enterprise approach which sparked the phenomenal and successful growth of Canada in the fifties and early sixties.

Does anyone need more proof that the techniques of detailed planning followed in recent years do not work?

We have officially reported and evaluated unemployment at stratospheric heights approaching one million, with no indication of events ahead to alleviate this social cancer. We have a Canadian dollar that has collapsed on world currency market after being artificially and falsely propped up by financial policies which will have painful repercussions in years to come. We have just had an official quarter of "negative economic growth" -- which means, sliding backwards.

These are the broad evidences of the distress. Everyone can cite more personal experiences: architects, engineers and construction workers sitting idly as building activity stalls; the textile and related industries on the ropes; the steel industry struggling to maintain a reasonable level of operations.

This wasn't supposed to happen because there was government planning, controls and regulations, participation -- and so many other catch-phrases and loose words.

I am not laying 100% of the blame on the advocates of the ideologies that make up the "controlled society". Certainly, world conditions made it tough to fight for improvement, to fight for the creation of jobs, for example. But, for years the advocates of master plans argued that detailed control and regulation of everyone's activities was the best solution to such problem periods.

Now we know that whatever the merits or demerits of theories of economic planning, they are not good enough for Canadians. Business is tough enough when you have to compete with other businesses. Over-regulation by government just makes it tougher.

If that view sounds like the rugged individualist, he now has the company of the sheltered academic. A recent study by two University of Western Ontario law professors comes to the conclusion: "Increasingly civil servants wield the real power in business. Legislation controls the market place to a much larger degree than many people;

realize. It appears we may have approached, if not passed, the limits to which laws can change the conduct of business."

Where do we go from this difficult position? I have a suggestion based on the normal good sense, ability and drive of all Canadians. It's even proven -- in the excitement of rapid growth and opening of opportunities through the post World War II years, before the constricting straight-jackets of bureaucratic monstrosities.

Individual Canadians, acting with initiative in an economic framework that argued for the creation of opportunities, created the businesses and jobs that supported heavy immigration and new innovations in social benefits. The atmosphere of those years is illustrated by the resolution to go-it-alone in the St. Lawrence Seaway project, by the construction of the oil and natural gas pipe-lines, by the opening-up of the Labrador iron mines and by innovative downtown real estate developments sparked by Place Ville Marie. Government policies set and reflected the mood in encouraging growth.

Canada and Canadians were enterprising. Today, our society lacks the desire to be enterprising largely because of the circumstances described by those two university professors. We are in an economic malaise.

The Concise Oxford Dictionary defines "enterprise" as an "undertaking, especially a bold or difficult one." The definition adds the words "courage, readiness".

These are good and positive ideas. Yet they too often are discarded in the pejorative tone given the phrase "free enterprise". That phrase should be brought back into Canadian life as quickly as possible because it is positive and desirable. Freedom is not a license. Freedom is a responsibility.

Bring together in the individual Canadian the responsibility of freedom with a courage to undertake bold and difficult projects. This mix is the recipe for a resumption of national growth that will soon reduce those nightmarish unemployment figures and probably ease the political strains now tearing at the nation.

Surely we can absorb the two main economic lessons of the past quarter century of Canadian history. The planned and over-regulated society doesn't work. The free enterprise society does work.

Let's free the enterprise exhibited in the past by Canadians and thus move on a new path of national growth and opportunity for coming generations.

New uniforms for O.P.P.

The public will begin to see members of the OPP in a new all-season uniform starting next month.

The new jacket will replace the present tunic worn by the OPP and most other police forces in Canada, according to Commissioner H. H. Graham of the Ontario Provincial Police.

The jacket is designed for greater flexibility and features a pleated back, giving

the officer a greater ease of movement.

The Sam Browne Belt will be worn under the jacket rather than on top, with areas cut away at the bottom of either side for the officer's gun holster and handcuff pouch.

The jacket will be worn for work purposes only, with the present tunic being retained for formal occasions.

The Editor
Minden Progress
March 25/77

Dear Sir:

The two major problems facing all Canadians are national unity and unemployment. National unity has always been outstanding issue, even from long before Confederation, and will be a problem for a long time to come.

I see a great danger for all of Canada if the federal government concentrates its attention, and that of the public, on separatism to such a degree that our national economic difficulties are ignored. Our national economy is now, and has been for some time skating on very thin ice as we become less and less able to compete in world markets for manufactured or even semi-manufactured products. The direct and immediate result is lost jobs now and less job growth for the future.

We develop a vicious circle of inflation, falling productivity, high interest

rates and little economic growth. Those who are well organized in pressure groups or strong, established unions can often keep ahead of the wolves on the trail. For the pensioners, the non-organized workers, the self-employed, and the small businessman, the budget tightens and the alternatives narrow.

This applies throughout Canada with the exception of Alberta and other energy-rich areas. It is a greater problem in Quebec than in Ontario and indicates to me the fallacy of Mr. Levesque stating that Quebec is economically better off on its own.

Modern economics depend on specialization and efficiency of scale. On the world scale, Canada as a whole is a small frog in a big pond, as shown by our faltering manufacturing sector. Relatively speaking, Quebec would be only a tadpole in that economic pond and would be eaten be eaten by a turtle in short order.

It makes little sense to

me for some people to have to work harder and longer to make more money and pay greater income taxes to maintain those who are physically able to look after their own needs if only they had a job. There are thousands of people who wish to work but can't find employment.

At the same time, there are national, provincial and local worthwhile projects which need to be done and would be beneficial to the Canadian community for years to come. Projects such as electrification of the railways or oil and gas pipelines from the Arctic would employ many thousands directly and indirectly all through Canada. At the same time, energy self-sufficiency would give our manufacturing future a tremendous boost and could make us a world leader once again.

There is no future in doing what was done in Labrador's Churchill Falls Hydro Project and what is now being done in Quebec's James Bay Hydro Project - that is simply selling our electrical energy to the United States. That enables the United States to estab-

lish manufacturing mills and employ thousands. Some of those jobs might otherwise have been Canadian.

Cheap energy is going to be a crucial key to job creation and a high standard of living. At the same time, it is crucial to national independence, free from the dictates of an Arab cartel, which tells France what to do or not to do.

The cost of any project comes down to that of having available manpower. The unemployment rolls show that manpower is available. It is time that all governments got together and made use of it as it guarantees future prosperity and freedom.

family...living

Hall's Lake News

Doreen Stinson

The weather for the school holiday break has certainly be varied. To begin with, the storms in the cities on that week-end when most families were deciding where to spend the break must have persuaded them to depart for warmer climes. However, as the week progressed we enjoyed lovely sunshine, despite the cool winds. Sunday was a lovely day.

Some of the young folks who came up during the week enjoyed a last fling at winter downhill skiing up at Tally-Hos near Huntsville. Tom Montgomery, and his cousin John from Downsview certainly had a great time and acquired a deep tan from the sun and the wind.

Several local people drove to Lindsay to see what the new big store down there was like. With all the flyers and ads everwhere no wonder curiosity is aroused!

Our lake seems to be full of bumps and heaves these days. Guess it is natural before the Spring break up. A lively Ice Derby is a yearly event with Club 35 and a good deal of fun derived from being so fortunate as to draw a ticket with the right date for the ice going out completely. Some years it is surprisingly late.

Sorry to learn that Mr. Keith Levitt has taken ill down in Florida, and trust he will soon recover sufficiently to return to his home.

The racoons are out and have already climbed up on the back roof and out on the limb of a tree from which our bird feeder was suspended. He managed to get the feeder off the limb and must have been hungry after his Winter in hibernation as every crumb was devoured. Robins have been seen, lots of crows are around, and tiny little moles can be seen scurrying across the highway as one drives along. All signs of Spring. Our rhubarb is also showing about two inches above the snow in the back yard.

The "Silent Movie" in Minden was a real comedy and reminded us of the old Charlie Chaplin flicks where nothing is said, just good acting and the words flashed on the screen. With so many terrible pictures advertised everywhere it is nice to see something that is just clean and funny once in a while.

Mr. and Mrs. Bert Harrison of Carnarvon were dinner guests of Mr. and Mrs. Cecil Irwin on Saturday evening and it was nice having them for a roast beef dinner. Mr. Harrison is quite a Poet and we like reading his pieces in the local papers from time to time.

Mr. and Mrs. Ron Green and daughter Karen of Scarborough spent the holiday week at Glenroy Lodge, with Rose and Frank Brittain providing for their comfort and good meals. They are regular Summer guests at Cherokee Lodge and enjoy Haliburton scenery and air.

A big Thank You to all the Highway men and Sanding men who have kept our Highway stretch from Minden to Dorset so clear and safe for treacherous Winter driving. Where else do they have better service than we do? Many a stormy night when we are all tucked safely in our living rooms watching T.V. or snuggled in our warm beds, we can hear these fellows driving up and down every other hour or so to keep the roads safe and ready for those school buses in the morning and people going to their various jobs. Yes, we know it is their job and they are paid, but we still think they deserve a big THANK YOU. This of course goes for those Township of Stanhope men also, and the County plows and Sanders as well.

Don't you ladies get a little provoked when you get some really nice pillow slips and they come apart in the corners after the first washing?.....Also aprons.....These commodities are not cheap any more and despite the lovely materials and patterns and fancy trims and supposedly wash and dry, the workmanship is shoddy. Speed at production level seems to be all important, not how well a product can be made to last.

I made some tasty Clam Chowder the other day from an old family recipe given me while in Hamilton recently. One can of clams with one can of carnation milk. Grate finely about a cup of potatoes, carrots and onions and heat well after mixing thoroughly. Add a little ordinary milk to make it thinner or leave it thick and serve on toast. A yummy luncheon treat or for that Saturday evening supper.

Folks will soon be starting their outside painting jobs. Using a good quality paint pays off and even after a severe winter like the one we have just gone through proves it. We acquired some really good yellow paint

acquired some really good yellow paint locally and there isn't a sign of peeling now that we can see where the snow banks so recently were piled.

Mrs. Audrey Wilkinson left on Friday for North Bay for a short visit with her brother, returning Sunday evening.

We hear that some Lawsuits are in the offing now in connection with the Hawk Lake bridge collapsed almost one year ago. In the meantime the new structure is going up and is being properly supervised as construction proceeds.

Best wishes to all sick and shu-ins in hospitals, Extendercare, and private homes. It has been a long winter, but cheer-up Spring is on its way and the clean air and sunshine has a

The Senior League

Once again its Birthday time at Hyland Crest. This months BIRTHDAY TEA will be hosted by the C.W.L. of KINMOUNT. Celebrating birthdays this month are; Annie Iles 97, Ada Woolcott 86, Bruce Simms and Emma Henderson 76 and Alfred Richardson 60.....CHAPEL SERVICE this week will be performed by Rev. RON THORNTON, of the Minden Gospel Church.....On Wednesday the residents of Hyland Crest will climb aboard the PARAPLEGIC BUS and head for Lindsay to do a little shopping and sight-seeing at the new K* MART. They will also take in Lindsay Square and have lunch. This will be the first outing for the residents after a long and dreary winter and the residents are all anxiously awaiting Wednesday....Again this year the residents will be taking part in the ROTARY SKATE-A-THON here in Minden on Friday evening. As last year MARK SCHELL will be skating for the HOME with a pocket full of PLEDGES. Joining Mark this year will be the Home's physician, Dr. Blair Pearce. He too will be skating for a handful of pledges. Some of the residents will also be taking part on the arms of both these gentlemen.....

Farm News'n Views

FROM THE LINDSAY AGRICULTURAL OFFICE

PLANNING FOR THE WEATHER

The weather of this past week and last April is an indication of how fast the weather can change. As a result, many farmers can be caught not being ready to take advantage of ideal conditions for spring work.

Planning ahead is the one advantage you can have over the weather. If you have not already done so, the following should be considered. Soil testing as soon as possible, choosing and ordering varieties, fertilizer and herbicide, machinery repair, manure application, plowing and cultivation.

Many varieties of spring grain, corn and forage seeds are already sold out. Also, specific fertilizer, herbicides and machinery parts may have to be ordered ahead to be on hand when required.

If you are growing winter wheat or winter barley, they should be topdressed with nitrogen early this spring. Up to 80 pounds of actual nitrogen is recommended. Deduct the nitrogen applied when planted and the nitrogen supplied if a legume stand was plowed down last summer. One-third legume plowed down supplies 50 pounds of nitrogen and one-half or more legume plowed down supplies 100 pounds of nitrogen. The same values for legume plowed down applies to other crops to be planted this spring.

If possible manure should be spread and worked in before planting corn this spring. Ten tons of cattle manure can supply 50 pounds of nitrogen, 20 pounds of phosphate and 90 pounds of potash.

The details of the 1977 Ontario Beef Calf Income Stabilization Program were announced last week.

The key items for beef cow-calf producers in Victoria and Haliburton Counties to note are as follows;

(a) The support price for calves will be 51.5 cents a pound this year.

(b) The enrollment fee is \$8.00 per cow.

(c) All the cows a producer owns on April 1, 1977 are eligible for coverage.

(d) The deadline for applying to participate is Tuesday, May 31st, 1977.

This will be the third year for this Provincial beef calf income stabilization program. The basis of the program will be similar to last year's in that all cows owned by a producer are eligible, and any payout will be based on an 85% calf crop with 450 pound weaning weight for calves.

The prices paid for calves at the various stocker and feeder sales held across Ontario next fall will be monitored to determine the average price paid for calves. The amount this average price is below the support price will be used to calculate any payout.

All the beef producers who were enrolled in last year's program will be receiving details on the 1977 program and the necessary enrollment forms in the mail by early in April.

Those beef producers who did not participate last year and who want more information on this year's program can obtain it at the Agricultural Office in Lindsay after next Monday, April 4th.

Please remember this Ontario stabilization program is for the producers of beef calves. The Federal stabilization program for slaughter steers and heifers for 1976 is also available now - forms to apply for this program are still available at the Agricultural Office, the Lindsay and Woodville Sales Barns and at the Ontario Stock Yards in Toronto.

COMING EVENTS:

Sat. April 2 Victoria County Holstein Club Bus Trip to Cobourg and Port Hope Area

Area Livestock Market Report

STOCKERS Very good prices were noted at the stocker sale last Saturday. Prickles on some stockers were 43 to 45 cents for steer calves up to 630 lbs. Heavier steers from 40 to 42 cents. Heifer calves sold from 36 to 37½ cents per lb. Many buyers were evident even at our Wednesday night sale, with another good strong demand on light supply.

BEEF COWS A special beef cow sale this Wednesday at 1:00 p.m. We do need more beef cow springers and cows with calves. Bring them any time before 12:30. **THIS WEDNESDAY AFTERNOON, MARCH 30, AT 1:00.** **BUTCHER COWS** A good strong Market on Butcher cows, with good cows up to 30%. All cows in the 26 to 29 cent range.

VEAL Very short supply of good veal. Common veal from 35 to 42 cents.

BOB CALVES A large supply on hand. Top beef cross calves from \$40 to \$55. Dairy calves from \$25 to \$45. Common calves from \$15 to \$30.

PIGS Another good weaner and feeder pig sale with most selling from \$30 to \$45 with sales to \$52. Several bred sows at the sale selling from \$160 to \$225, with hogs selling in the \$80 to \$100 range. Market pigs sold from 41 cents to 42½ cents per pound live weight.

BEEF COW SALE - Wednesday, March 30, 1:00p.m. **EASTER GOAT, LAMB AND PIGLET SALE**, Saturday April 2 at 1:00 p.m.

HEREFORD SALE Saturday April 16 at 1:00 p.m.

MINDEN PROGRESS Wed. March 30, 1977 Page 7

Left scene, driver charged

A two vehicle accident on Highway 35, south of Minden, has resulted in some \$800 damage to the cars and charges against one of the drivers.

Joseph Leblanc, 49, of Kent Road, Toronto was southbound on Highway 35 when his 1973 car was struck by a 1972 car travelling in the opposite direction.

Driver of the second vehicle, 36 year-old Gordon Mahon of Hurley Road, Ajax has been charged with leaving the scene of

an accident as well as impaired driving by investigating officer, Provincial Constable Al Bibby of the Minden Detachment of the Ontario Provincial Police.

Minden Horticultural Society formed

A special meeting of Minden Council last Wednesday gave its support to the establishment of a Horticultural Society for Minden.

For those interested in joining the newly-created Society, Council appointed Brian Sisson of the Parks and Recreation Department as their contact man.

Annual fee has been set at just \$2.00.

A 50-member minimum slate is required to qualify the Society for a government grant available to newly formed associations. Activities of a Horticultural Society include a wide ranging community beautification program such as tree planting, conservation

projects, and landscaping public buildings as well as clean-up and plant-up campaigns.

There are also competitions provided for such subjects as home gardens, seasonal flower shows, photography, floral arrangements, vegetable and fruit displays and Provincial and District contests.

For youths aged 6 to 16 who are interested in gardening the Society provides seeds, bulbs, plants, group experiments, individual guidance, competitions and social activities.

The Ministry of Agriculture and Food also provides the Society with brochures varying from lawn, flower and tree care to tips on vegetable growing and pest and disease control.

If you're interested in an association whose ultimate aim is to 'Beautify Minden', then stop in and see Brian Sisson at the Municipal Office or Cliff Burke at the Minden Progress office, and join the Minden Horticultural Society.

About the Town

with Jeanne Sears

These days we see many people, young and old on their bicycles. Do take care and watch the rest of the traffic; we see you if you wear bright clothing, but do learn the rules and use them.

The community sends belated good wishes to these people having birthdays in March, Emma Henderson, Ada Woolacoot, Annie Iles, Bruce Simms, Alfred Richardson, Mrs. W. MacArthur, Mrs E. Windover, Mrs. W. Stone and many others too numerous to include.

We have heard from residents who live along Minden Lake above the Power House that water levels there have been really dropped. Hope this didn't affect the homes used only part of the year.

Good wishes go to these people who are in or have been in hospital, Bill Elcome, John Johnson, Margaret Prentice, Jane Kent, Mrs. Alfred Millburn and Mrs. Hartley Stevenson.

When the first arrives, it brings in Cancer Month, so wear a daffodil and add your support to these funds used mostly for research.

Guest last week with Lilian and George Davidson were Alice and Joe Pietkiewicz of Toronto.

Next Sunday at 2 there will be "Easter in the Park" at the Arena as the Minden Figure Skaters show their skills and there will be guest skaters as well.

There are some business moving; Recorder Office will be beside the Library and Highlands Plumbing and Heating are moving on Main Street. Where the Recorder was situated.

Mr. and Mrs. Syd West of Lutterworth Estates returned last week from a holiday in Hawaii; a gift given to them by their son and daughter-in-law of Grand Valley Ontario.

At the weekly Mini Card Party at St. Paul's Parish Hall last Thurs afternoon winners were for bridge Norman Taylor, for cribbage Bill Bennett and Lilian Davidson and for euchre lone hands Hilda Harrison and Harry MacMinn and Lolyd Sedgwick.

Hing to the week - Want to identify different keys, just dip in a variety of paint or dab on you nail polish.

Do you think this is tru? Strange how much you've got to know before you know how little you know.

Duncan Stewart

"Your're lucky", we say, to the Doers-in-life,
As we see all the things they have got,
To have so much time to do all these things;
And achieve such a wonderful lot.
Now, if we had this time, that you seem to have,
We'd use talents with which we were blessed,
That are hidden 'neath bushels and never come out;
To be put to the ultimate test.
It's easy to talk, and also to fool,
If not others, at least our own selves;
Oh, time at your door, the sins that are laid,
An the blame for the things we have shelved.
We keep our illusions by this little trick,
And that's how I've still some of mine,
For my talents would let me do wondrous tings,
If only, if only, I'd time.
D.G.

School Break is nearly over and many people went away from our area to Sunny Places, now back to work and complete the next term at school. Seems only a very short time till we will have Easter weekend, April 8th, Wonder if spring is on its way? Several nice sunny, windy, days last week, but to-day Monday was dull and overcast, so we will have rain. Hope March goes out "Like a Lion" so we will earn a lovely spring. Cheerio until next time.

Fireless Firemen

The headlong rush by two Stanhope firemen to battle a Friday afternoon blaze foundered on North Shore Road when the left rear wheel and axle fell off their pick-up

truck about a half-mile west of the Stanhope Municipal Office. Gord and Harry Martin were working at their home when the fire call came in and they rushed off. Just min-

utes later they found themselves without wheels (well, one anyway) and immobilized. Gord (left in both photos) and Harry did manage to retrieve the missing wheel and axle

with the aid of a rope from the lake where it ended up 20 feet below the road, then loaded it into their truck and waited for a tow truck. They didn't make it to the fire

Two hurt in \$5,000 crash

Two persons were injured, one severely in a head-on collision on Highway 121 south of Minden a week ago Tuesday.

Damage to the two cars involved exceeded \$5,000.

Taken to Ross Memorial Hospital in Lindsay early Tuesday afternoon with serious injuries was Gerta Reeds, 73, of Burnt River. Hospital officials reported she is now in satisfactory condition.

Driver of the second vehicle Henry Thornton, 54, of Scarborough, was treated in Minden Red Cross Hospital for lacerations of the face and neck and is now reported in good condition.

Investigation by Provincial Constable Weldon Popp.

William John Scott, 36, of Bay Ridges, was charged with passing when the roadway was not clear, after he struck a car driven by William Vanderhorst, 36 of Haliburton.

Scott was northbound on Hwy. 35, south of Minden, when he attempted to pass another northbound vehicle and struck the southbound Vanderhorst car.

Total damage to the two vehicles was estimated at \$900 by investigating OPP officer, Jim Solway.

Following an early Wednesday afternoon, collision James Clayton Hodgson, 16, of Haliburton was charged with turning unsafely when he attempted a left hand turn.

Driving east of Haliburton on Hwy. 121, Hodgson slowed to make the left turn, but turned in front of a car driven by Lavern P. Lewis 57, of Bancroft. Hodgson told police he didn't see the Lewis vehicle coming.

Damage to the two vehicles totalled \$700.

Investigation by Provincial Constable Jim Solway.

Late Tuesday afternoon, Betty M. Austin, 38, of

Haliburton, was rounding a curve on Hwy 121, when she lost control of her car and hit a sign post, then a hydro pole.

The car was damaged to the extent of \$650, the post \$20.

Investigation by Provincial Constable Boyd Jarvis.

Dennis Byers, 29, of Haliburton village, was backing out of his parking spot across from the Haliburton Legion in the early last Saturday morning when he struck a parked car belonging to Allan Howe.

Damage to the Byers pick-up was \$150.

Investigation by Provincial Constable Mike Legge.

Liason committee for water & sewers appointed

A special meeting of Minden Council last week set up a special Water and Sewer Liason committee. Purpose of the Committee is to make periodic checks of the water and sewer lines now being installed and if any problems arise, to bring these problems

to the attention of the contractors.

The four men appointed to the Committee are; Minden Reeve Reg Booth, By-Law Enforcement Officer, Dick Schell, Councillor Lyle McKnight and Roads Superintendent, Earl Kent.

Minden awards gravel crush tender

A tender to supply Anson, Hindon and Minden with some 15,000 yards of gravel crush was awarded by council last week to Robert Young Construction Ltd., of Ennis-

more. The winning bid of 85 cents a yard was the lowest of five bids submitted, the others ranging from \$1.00 to \$1.34 a yard.

Last year gravel crush cost the municipality \$1.22 a yard.

NOTICE

Accelerating costs, including postal rates now force the Progress to raise its subscription rate to \$7.00 a year (Canada) and \$8.00 a year (Foreign) effective April 1, 1977.

Signed-up

A Stanhope Township pride and joy is its new firehall, seen above, with the recent addition of the new Stanhope Firefighters Hall sign. This is just one of the many projects the busy and energetic Stanhope firemen have accomplished.

THE CORPORATION OF TOWNSHIP OF LUTTERWORTH

IN THE MATTER OF THE MUNICIPAL ACT;
and
IN THE MATTER OF a proposed By-Law of the Corporation of the Township of Lutterworth to stop up, close and convey part of the original allowance for road between Lot 21, Concession "A", Lutterworth, and Lot 21, Concession "A" Snowdon.

NOTICE IS HEREBY GIVEN, pursuant to Section 443 of The Municipal Act, R.S.O. 1970, as amended, that the Council of the Corporation of the Township of Lutterworth proposes to consider and if deemed advisable to pass at its regular meeting to be held at the Council Chambers on Highway No. 35, 3 miles south of Minden, on Tuesday, May 17th, 1977, at 10:00 a.m., a by-law to stop up, close and convey the following:-

ALL AND SINGULAR that certain parcel or tract of land and premises situate, lying and being in the Township of Lutterworth, in the Provisional County of Haliburton, and being composed of part of the original allowance for road between Lot 21, Concession "A", Township of Lutterworth, and Lot 21, Concession "A", Township of Snowdon, more particularly described as follows:-

COMMENCING at a point on the easterly boundary of Part 2, Plan 19R-370, being a part of King's Highway No. 121, distant South 58 degrees 44 minutes 20 seconds East, 354.97 feet from the North East corner of Lot 21, Concession "A", Township of Lutterworth;

THENCE South 74 degrees 54 minutes 30 seconds East, 33.20 feet to a rock post;

THENCE South 55 degrees 35 minutes West, 291.78 feet to an iron bar;

THENCE South 20 degrees 12 minutes East, 102.81 feet to a point;

THENCE North 69 degrees 48 minutes East, 33.0 feet to a point;

THENCE North 20 degrees 12 minutes West, 113.33 feet to a point;

THENCE North 55 degrees 35 minutes West, 307.92 feet to a point;

THENCE North 74 degrees 54 minutes 30 seconds West, 83.34 feet to a point;

THENCE South 38 degrees 21 minutes 30 seconds West, 55.42 feet to the place of beginning.

BEING outlined in red and labelled as Part 2 on a plan of survey by H. C. Bishop, O.L.S., dated 21 January, 1977, a copy of which is attached to the proposed by-law.

AND TAKE FURTHER NOTICE that before passing the said By-law at its meeting to be held at the time and place above-mentioned, the Council of the Corporation of the Township of Lutterworth shall then and there hear in person or by his or her Counsel, Solicitor or Agent, any person who claims that his or her land will be prejudicially affected by the said By-law and who applies to be heard.

DATED at the Township of Lutterworth this 28th day of March, 1977.

Mrs. B. A. Millar,
Clerk-Treasurer,
P.O. Box 176,
Minden, Ontario.

ONTARIO ELECTRICAL LEAGUE
VICTORIA - HALIBURTON CHAPTER

Good Neighbour Sam

He's the guy who knows how to fix that leaky faucet or replace the screen door on the front porch. Give him half a chance and he'll be delighted to fiddle with the sticky carburetor on your new outboard motor. Sam knows a lot about a lot of things and everyone says he's the man to see when things need doing.

If you're planning some electrical work, for goodness sake don't ask Sam. Electrical wiring is a job for the experts. Ask an experienced electrical contractor to install the wiring or appliances you have in mind - an expert with years of practical experience. Your electrical contractor knows just how the installation should be made for your safety and satisfaction - after all it's his only business. Your contractor will also arrange to have the installation checked by an Ontario Hydro Inspector. You'll have a certificate to prove that the job is perfectly safe and in agreement with the Ontario Electrical Code.

Don't ask Sam. What Sam doesn't know about electricity could be dangerous for you.....and Sam as well.

SPORTS

Stu Russell fires four goals

Midget's chippiness cost them game

The Minden Tri County McKnights Shell midgets played a rather chippy, lackadaical game at the Centre on Sunday evening and as a result lost to Cannington in their Play-off Championship series 3-1. Minden presently leads the best four of seven series 2 games to one, but continued play like that of Sunday and the series will be a long one.

Minden was assessed 19 minutes in penalties including a fighting major to Kim Hamilton in the final three minutes of the game which resulted in a game misconduct and puts Hamilton out of the next game. This will be a big blow to the team, as they are already short players who are on holidays.

Stuart Russell scored the lone Minden goal from a steadily improving, Steve Crowe, who is playing his finest hockey of the season in this series.

You owe yourself a lift this spring

It's been a tough winter. Get it behind you and step blithely into spring! New clothes? New furniture? Maybe a trip? Get the money you need in a low cost, life insured personal loan at Victoria & Grey.

VICTORIA and GREY
TRUST COMPANY SINCE 1889

In Cannington on Thursday, Minden came away with a 4-2 victory on goals by Kim Hamilton, Ed Williams, Stu Russell and Grant Porter. Once again Minden had a player receive a misconduct penalty for yapping at the referee. Minden picked up 28 minutes in penalties to 20 for Cannington.

In the first game of the play-off series, Minden came from behind a 4-0 deficit in the first period to score seven straight goals and eventually win 9-7.

Stuart Russell was the man on target in this contest, scoring four big goals and also added an assist. Steve Crowe, one of the most improved players on the team over the final half of the season and through-

Dollo's IGA Bantams, win, tie

The Minden Tri County Dollo's IGA Bantams put together two great games this past week to at least tie for first place in their Round Robin Championship series with Beaverton Ops, Little Britain and Omeme.

At the Centre here in Minden, the Bantams held Beaverton to a 1-1 tie and then on Thursday evening they travelled to Ops and edged their hosts 2-1.

Ward Crego scored for Minden in the Beaverton contest.

In Ops, Warren Mann got his first goal of the season and Charlie Austin fired the winner.

out the play-offs, scored twice while singles went to Grant Porter and Kirk Bull.

In this game it was Cannington that aroused the ire of referee's Larry Kent and Ron Smith. Two Cannington boys picked up game misconducts, one a 10 minute misconduct and another a five-minute match penalty, for a total of 49 minutes in the sin-bin. Minden was assessed 28 minutes, which is nothing to be proud of either.

The fourth game in this series goes Monday evening in Cannington and the fifth game back here at the Centre at 8 p.m. on Thursday evening. Check the time fans for any last minute change.

However, with Minden's fine performance this week, the whole Round Robin series was turned into a very complicated state. The word from Tri County headquarters is that it will be a week to ten days before a Champion can be declared and there is a strong likelihood that there could be a sudden death play-off game to decide a Champion.

As far as manager, Dave Waite, of the Minden Bantams is concerned, the standings are Minden 5-2-1, Little Britain, Beaverton and Ops 4-3-1 and Omeme 1-7. However, he went on to say that this could change.

SKATE-A-THON

Pledge sheets for the Minden Rotary Club's second annual Skate-a-thon scheduled for April 1 can be obtained at either the Vasey Real Estate and Insurance office or the Progress office. You too can skate for your favorite organization or charity and split the proceeds 50/50 with Rotary.

Bancroft, Fenelon win P.S.T.

The Thomas Adams President, Secretary & Treasurers tournament was held in Fenelon Falls on Sunday and once again Carnarvon Lanes took a back seat to their sister alleys. Both Bancroft Lanes and Fenelon Lanes each placed three bowlers in the Provincial Finals, to be held on May 14th at Bowl-A-Rama in London commencing at

1p.m.

Leading the way with over 900 triple was Mike Croghan, President from Bancroft. Ian Starrett will join Mike in the Presidents division. Ian bowls out of Fenelon. Mike's pretty wife Bonnie will join him in London as representing 1000 Lakes in the Treasurers division. Bonnie

rolled 796, and joining her will be Fenelon's Brenda Liscombe. Joan Deyell of Fenelon and Norreen Howe of Bancroft will be competing in the Secretaries Division.

Sixty-four bowlers took part in the tournament and then were treated to a buffet lunch.

Stata and Cox finish 2nd in Doubles

At Lakeview Lanes in Peterborough on Saturday the Royal Canadian Legion District Finals were rolled to decide three teams, doubles and singles to go on and compete in the Provincial Finals later on in April.

The top three teams to advance were Peterboro, Bowmanville and Bancroft.

In Doubles Play, Wes Stata and Fred Cox came up with the finest performance from a Haliburton Legion viewpoint, finishing second behind Peterboro with 1434. Ron Robinson Sr. and Eddie Cox rolled 1332, and finished back in the pack.

Don Mackie of Fenelon Legion also had a good day, rolling 800, good enough for 3rd spot and will advance to London.

Atoms lose to Fenelon in play-off opener

The Yake Electric/Red & White Atoms went down to defeat in the final 79 seconds of their play-off opener with Fenelon Falls on Monday evening in the Falls. The game was the first of a three of five series for the League play-off Championship.

All the scoring was in the third period, with Minden's Doug Schell getting the first goal of the game early in the period. Less than five minutes later Fenelon's Pat Townly tied it up and at 1:19 left, Paul Young scored his first and what proved to be the winner and thirty seconds later scored again to insure the victory.

Although down in the series, they are definitely not out of it. This was only the Atoms third loss of the year in some 40 games and the next two games in this series are in their own back yard this week. Thursday evening at 7 p.m. the two go at it again and the third game is at 2 p.m. on Saturday. So come on folks, let's fill the Centre on both occasions, these youngsters certainly deserve your support after the tremendous record they have compiled this year. Much of the credit must go to coach Gary Warburton to, as these boys play full out for him at all times.

Dump truckers to discuss their industry's future

Three crashes, one driver charged

The future of the dump truck industry in Ontario will be the main concern when close to 1,000 dump truckers from all parts of Ontario meet in Toronto on April 22-23, 1977.

Highlights of the 4th Annual Dump Truck Owners' Seminar are revised controls on entry to the industry, new legislation on vehicle inspections, covering of loads, driver licensing, gross weights and impact of the Select Committee on Highway Transportation of Goods, whose report is expected mid-April.

Location is the Skyline Hotel, Rexdale. Sponsored by the Dump Truck Owners' Division of

Ontario Trucking Association in co-operation with local associations, an additional feature will be an exhibit of dump truck equipment and supplies.

Seminar sessions and speakers will deal with safety, costs of operation, truck haul rates, vehicle maintenance, equipment developments, local and regional association activities and possible effect of the Government's Aggregate Resource Policy on the trucking industry.

Free Seminar registration is available to dump truck owners by contacting OTA in advance at 555 Dixon Road, Rexdale, Ontario, M9W 5L1.

One driver was charged by Police while two drivers received minor injuries and damages totalled some \$1,500, in three separate traffic accidents this past week.

Charged with failing to wear a seat belt was Barbara Hunter, 21, of Haliburton. Hunter was east-bound on Hwy. No. 121, near the Allsaw bridge, rounded a curve then struck the snow bank and rolled over.

The 1971 car was damaged to the extent of \$500 while the driver was treated at Haliburton Hospital for minor injuries.

Investigation by Provincial Constable Ron Buchanan.

Early last week, Jovan Radicevic, 26, of Brampton, received minor injuries when the Van he was driving on Hwy. No. 121 rounded a curve, entered the ditch and rolled onto its side.

Mr. Radicevic was treated and released from Haliburton Hospital. Damage to the Van was estimated at \$500.

Investigation by Provincial Constable Bob Wood.

On Friday afternoon on County Rd. No. 8, near Dorset, a pick-up truck driven by Herbert Holmes, rounded a curve, entered

the ditch and rolled over causing some \$500 damage to the vehicle.

Investigation by Provincial Constable Mike Pearson.

Stony Lake fish pose no health hazard

Stony Lake fish pose no health hazard from lead contamination, Paul Cockburn, Central Region director for the Ontario Ministry of the Environment reported today.

Responding to an earlier unconfirmed report of high lead levels in fish from Stony Lake, 16 miles north of Peterborough, the Ministry began analyzing more than 40 fish of several species.

All samples were found to contain less than 0.5 micrograms of lead per gram of fish, more than 20 times under the federal department of Health and Welfare criteria of 10 micrograms per gram.

"We were concerned by the lead levels reported in a Trent University study completed late last year," said Mr. Cockburn.

"Clarke Rollins, MPP for Hastings-Peterborough, has been working closely with Peterborough County officials and reported results of our recent investigations to them this week.

"Our analysis of Stony Lake indicates that the levels reported by the university may have resulted from analytical problems which have occurred in previous studies.

Jim Bishop from the Ministry's main laboratory complex in Toronto explained that lead analysis is usually a straightforward procedure using a method called atomic absorption spectrophotometry.

But difficulties arise, he

said, if there is a high background of organic material, in this case fish, which can lead to distorted readings, if a correction factor is not incorporated in the calculations.

Protect your children against disease through immunization.

This is what Ontario is doing to help you.

Immunization protects against polio, diphtheria, measles, rubella (German measles), whooping cough, mumps and tetanus. Although often considered to be "childhood diseases," they are anything but minor—measles, for instance, can lead to encephalitis (brain disease), a cause of retardation.

Here in Ontario, the Ministry of Health provides the vaccines and your Ontario Health Insurance Plan (OHIP) pays a fee to the physician for administering them.

But the responsibility for immunization—for making sure your children are protected—is still up to you. Have your children immunized by your family physician. Or, for school age children, use school immunization programs provided by Health Units.

Immunization is quick and convenient—vaccines against several diseases are often combined. And the only way to control these diseases is to immunize as many people as possible.

Your Ontario Government is doing its share—by providing vaccines and paying for immunization through OHIP.

Do your share—make sure your children are immunized. Consult your family physician, public health nurse or local medical officer of health.

A free booklet, "Immunization is your responsibility," is available with a chart showing what diseases your children should be immunized against, and at what ages. For your copy, write to:

Healing Substance: Shrinks Piles

Exclusive healing substance proven to shrink hemorrhoids and repair damaged tissue.

A renowned research institute has found a unique healing substance with the ability to shrink hemorrhoids painlessly. It relieves itching and discomfort in minutes and speeds up healing of the injured, inflamed tissue.

In case after case, while gently relieving pain, actual reduction (shrinkage) took place.

Most important of all—results were so thorough that this improvement was maintained over a period of many months.

All this was accomplished with a healing substance (Bio-Dyne) which quickly helps heal injured cells and stimulates growth of new tissue.

Now Bio-Dyne is offered in ointment and suppository form called Preparation H. Ask for it at all drug stores. Satisfaction or your money refunded.

Preparation H

REALLY...

Really, my dears, perfect-pure blood lines aren't everything, you know. After all, we all know what a little dab of this and a wee dash of that can do for your cooking. Actually you might regard both my sister and myself as something of a gourmet concoction. Added to our main collie ancestry is a little 'je ne sais quoi' that does simply wonders for a gal's appeal. In fact, I just know that either one or both of us will appeal to YOU. You'll find us with A.I.D., (that's Animals in Distress) along with some rather choice friends including a 4 month-old female part-Labrador Retriever and two beautiful 8 weeks-old female part-Samoyed, part-Irish Setters, all white with just a dash of black. Drop into Mae's and ask for any of us, particularly me, if you get my drift.

Township of Lutterworth

requires a full time
